Communication from Plumstead Board of Supervisors

2020 will be remembered as a challenging time for all of us, and it is also a time of hope. Now with the surge in Covid-19 cases, strain on our health care system and the additional safety measures, the challenges increase. With the approval and start of distribution of vaccines and improved treatment for those that contract Covid-19, things are looking better. It is estimated that those most at risk will get the vaccine in a matter of days and the hope is that all those who want the vaccine will have access in 2021.

The members of your Board of Supervisors would like to be able to say by a specific date all will be back to normal, but we can't. We encourage each of you to continue to follow those measures that have kept you and love ones safe over the past several months. The more fully we follow the guidelines of the state and county, which we fully support, the better the end result will be for all of us. Our hope is that 2021 will bring with it a return to normal.

As your Board of Supervisors, we wish you a very safe and heartfelt holiday, celebrating your faith, knowing that this challenge will pass. It is our hope that we will have grown stronger for having gone through this difficult experience.

Warmly,

Your Board of Supervisors
Pete, Dan, Jim, Ken, Brian
