

WATER MAIN FLUSHING

The Plumstead Township Public Works Water Department will be performing flushing and inspection of the distribution system as outlined in the following schedule below.

The system will be flushed during the hours and days specified.

Due to unforeseen circumstances, overlapping of the specified days may occur.

As a result of the main flushing, please observe the following recommendations:

- a slight discoloration may be noticed
- running the COLD water for a short period of time should clear this problem
- refrain from laundering clothes during this time
- “clear flush” the line to the washer by capturing the water entering the machine prior to doing laundry

If further concerns arise, please contact the Public Works Department as follows:

- 7:30 AM to 4:00 PM – 215-766-0189 - press 1 for general information
- After hours – 215-766-0189
- EMERGENCY ONLY - 911

Thank you for your cooperation. Alan Bleam, Director of Public Works
