Generators Guidelines:

- An Electrical Permit Application is required.
- Include a Mechanical Permit Application with a piping diagram indicating materials used.
- Provide two copies of installation instructions that show how far the generator is to be located from combustible construction, windows that open etc.
- Include two copies of a site plan that show the location of the generator and its distance from the building, opening windows and property lines.
- A site plan can be hand drawn or a "Google Earth" or other print of the property.
- The generator should be no closer than 10 feet to property lines.
