EXPLORE ARCHERY (45 min): Youth Ages 6-12; Teens ages 13-17; Adults 18+ Explore Archery is an innovative education program focused on introducing beginners of all ages and abilities to the lifelong sport of archery. The explore Archery program is a multi-session, progressive, instructional Archery program conducted in 6-week sessions. Archery is that sport that you need to continuously practice at to become proficient. Each new session comes with different lesson plans! As With all individual sports-each archer develops at different paces. The explore Archery program starts the Archer at 5 yards distances and develops them up to 15 yards as they continuously learn to hit the bull's-eye consistently. Once an Archer is consistently hitting bull's eyes at 15 yards, they may be recommended for the JOAD Program.

Archery is a universal, lifetime sport...anyone can do it! It builds upper body and core strength, along with balance and hand-eye coordination. Archery develops strong problem-solving skills, focus, determination, and patience! "Exploring Archery" will introduce you to the sport of archery. All equipment, including bows, arrows (field tip), quivers, targets, safety netting and cones will be provided. This program will help students practice precision and proper form, while promoting the joy and fulfillment that archery can bring! Each week is a new and exciting lesson plan. Students can develop at their own pace in a safe and fun environment! Taught by certified, experienced instructors from Shooting Star Archery Academy.
